Sir:

Responsive to the Office Action of December 26, 2008, constituting a Requirement for Restriction among Groups I-XVII as defined on pages 2-5 of the Office Action, Applicants hereby elect the subject matter of Group III, i.e. the compound/composition of Formula I where X is represented by Formula 2(a) and ring C is a five-membered heterocyclic ring containing at least one nitrogen, and R<sup>1</sup> and R<sup>2</sup> do not form a heterocyclic ring.

Such compounds are exemplified by many of the working examples set forth in the present specification, such as Examples 1-20 and 23.

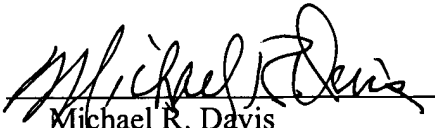

The claims which encompass the elected invention are claims 1-9 and 20-24.

Applicants emphasize that the foregoing election is made while reserving their rights under 35 U.S.C. §121 to file a divisional application for the non-elected subject matter of Groups I, II and IV-XVII.

Action on the merits is requested.

Respectfully submitted,

Hidenori MIKAMIYAMA et al.
